

EVERGREEN CIRCLES

BUILDING COMMUNITIES BY DEVELOPING LEADERS

WHAT IS EVERGREEN LEADERSHIP

Evergreen Leadership was founded by and is led by Kris Taylor, who synthesized her work in change, leadership and organizational development to create high impact leadership development experiences that transform leaders and the results they get.

Simply put, we help leaders and the organizations they lead to thrive in a state of flux. Today's environment, in business, education, and non-profit, is buffeted by an unprecedented velocity of change. Leading and working in today's world requires a different skill set – and Evergreen Leadership develops those skills.

WHAT TYPES OF LEADERS DO YOU WORK WITH?

- **Lead Boldly** is designed for Executives
- **Lead at the Next** Level is designed for high potential new leaders
- **The Entrepreneurial Leader** is designed for entrepreneurs of small to mid-sized firms

WHY MIGHT A COMMUNITY WANT TO DEVELOP LEADERS?

- To create a strong and lasting network of leaders across the community
- To develop better leaders in a variety of organizations that support a vibrant community
- To retain leadership talent in your community
- To develop synergy and support across organizations
- To offer your members high value, attracting new members and retaining existing one

HOW DO CIRCLES WORK?

Evergreen Leadership Circles engage 10 to 15 leaders in 8 to 9 month high impact, deeply transformational experiences. Our programs span time, allowing leadership skills to grow and establish deep roots. An experienced guide facilitates learning and creates a safe space to share, learn and grow. Working side by side with other leaders creates a powerful peer group that offers candid feedback, new insights and challenges every person to become their best self. And there is immediate application of the learning to the work situation, yielding immediate and lasting results.

HOW DOES A COMMUNITY-BASED MODEL WORK?

- A sponsoring organization, such as the Chamber, pools the resources across the community:
 - » The sponsoring organization provides the membership base to draw from and creates opportunities for members to learn about and register for Circles
 - » Sponsors in the community provide funding and meeting space
 - » An umbrella organization provides the administrative support
 - » Evergreen Leadership provides the programming
